

TABLE OF CONTENTS

PART 1 - PROTRAK BASICS	viii
Introduction	viii
Frequently Asked Questions (FAQs).....	xi
Chapter 1 – Setting Up the Railroad.....	1-1
Tombstone Data.....	1-1
Program Options Settings	1-9
Summary	1-12
Chapter 2 - Setting Up Stations	2-1
Default and Minimum Data Items	2-1
Fast Clock Settings	2-1
Station 1 – East Staging Yard.....	2-3
Minimum Data Items - Stations	2-10
FAQs Stations	2-10
Other Stations.....	2-10
Schematic Map.....	2-14
Summary	2-17
Chapter 3 – Setting Up Staging Tracks.....	3-1
Staging Tracks	3-1
Minimum Data Items – Staging Tracks.....	3-13
FAQs Staging Tracks.....	3-14
Gateways.....	3-14
Summary	3-15
Chapter 4 - Setting Up A Main Yard	4-1
Actonvale Yard.....	4-1
Minimum Data Items – “Yd” Yards	4-6
FAQs Yards	4-6
Summary	4-7
Chapter 5 - Setting Up Trains.....	5-1
Setting the Number of Trains	5-1
Two Through Traffic Trains.....	5-3
Minimum Data Items - Trains.....	5-7
FAQs Trains	5-7
Line-Up.....	5-7
Connecting Trains	5-11

A Train Reporting Location.....	5-14
A Switching Train As A Turn.....	5-20
Chapter 6 – Setting Up Customers.....	6-1
Customers at Actonvale	6-1
Minimum Data Items - Customers	6-11
FAQs Customers.....	6-11
Weigh Scales	6-11
Passenger Station.....	6-14
Other Customers	6-17
Summary	6-27
Chapter 7 - Setting Up Freight Cars	7-1
Setting the Default Yard	7-1
Adding Cars	7-4
Reporting Marks Entered Manually	7-29
Minimum Data Items - Cars	7-31
FAQs Cars.....	7-31
Summary.....	7-32
Chapter 8 – Setting Up Waybills and Car-orders	8-1
Quick Traffic	8-1
Offline Shippers.....	8-2
Waybills.....	8-4
Adding a Commodity	8-20
More Waybills	8-25
Rate not reasonable	8-30
More Waybills (continued)	8-32
Minimum Data Items – Waybills and Car Orders.....	8-32
FAQs Waybills, Bills of Lading and Car Orders	8-33
Car-orders	8-33
Summary	8-41
Chapter 9 – First Operating Session	9-1
Zone Printing	9-1
Operating Session On Paper Only	9-7
Adding Car Routing	9-9
Operating Session Continued	9-12
Switchlists.....	9-18
Switchlist Issues.....	9-27
Train Movements	9-27
Route Cars at Yards & Customers.....	9-32

Update the railroad for the next session	9-40
Session Results – What Happened?	9-51
Summary	9-53
Chapter 10 - Next Operating Sessions.....	10-1
Session 27	10-1
Session 27 Analysis	10-6
Session 28	10-10
Session 28 Analysis	10-15
Session 29	10-16
Session 29 Analysis	10-19
Sessions 30 and 31	10-20
Analysis of Sessions 26 through 31.....	10-20
Summary	10-30
Chapter 11 - More Car-orders and Opr. Sessions	11-1
Waybills and Car-orders.....	11-2
Through Trains and Staging Track Changes	11-4
Zone Printing Changes.....	11-6
Establishing a Timetable	11-7
Revising the Timetable	11-14
Running more Sessions.....	11-16
Summary	11-18
Chapter 12 - Add Castle Rock and Run Sessions	12-1
Click-by-click shorthand	12-1
Adding Customers at Castle Rock	12-3
Trailing Point vs Facing Point Switches.....	12-4
Adding Additional Cars.....	12-7
Adding Waybills.....	12-9
Adding an Offline Shipper	12-10
Changing North Star Engineered Lumber Waybills	12-16
Adding Car-Orders.....	12-17
Creating a new Reporting Point.....	12-18
Adjusting Train 202’s Route	12-18
Adjusting the Timetable.....	12-19
Changing Zone Speed Limits	12-22
Changing Train Departure Times.....	12-22
Scheduling Using ProTrak	12-23
String Diagram Scheduling.....	12-25
Timetable Scheduling	12-35
Deleting a train from the ProTrak Scheduler.....	12-42
Running more sessions.....	12-44

Hotbox Detector	12-44
Summary	12-46
Chapter 13 - Basic Passenger Train Operations.....	13-1
Additional Passenger Stations.....	13-2
Setting the Default Location for Passenger Cars	13-5
Adding Passenger Cars	13-10
Adding a Passenger Train	13-13
Scheduling the Passenger Train.....	13-18
Assigning Passenger Cars to the Train	13-23
Printing Schedules and String Diagrams.....	13-25
Adding a Dining Car.....	13-28
Adding the Diner Service Track	13-29
Adding the Diner to the train.....	13-30
Passenger Car Waybills.....	13-31
Adjusting Train 100/101's Yard Blocking	13-36
Passenger Ops Switchlists.....	13-38
Passenger Car Car-Orders.....	13-41
Work Notes.....	13-45
Synopsis	13-48
Summary	13-49
Chapter 14 – Special Sidings	14-1
Local Switcher	14-1
Freighthouse.....	14-2
Icing Tracks/Platforms.....	14-5
Stock Operations	14-6
General Purpose Clean out Tracks	14-6
Barge/Ferry/Car Float Operations	14-9
Summary	14-10
Chapter 15 - 'Special' Customers and Local Switching Train.....	15-1
Summary	15-2
Chapter 16 - Setup A Branch Line	16-1
Summary	16-2

APPENDICES.....	A-1
Appendix A - Definitions.....	A-1
Adjusted weight.....	A-1
Car Factor.....	A-1
Car Quality.....	A-1
Classification Yard.....	A-2
Clearance Plate.....	A-2
Clearance Point.....	A-2
Core Segment.....	A-2
Equated weight.....	A-3
Gateway.....	A-3
Interval.....	A-3
Liveload.....	A-4
ORER.....	A-4
Official Railway Equipment Register.....	A-4
Reclassification Yard.....	A-5
Region.....	A-5
Siding.....	A-5
Stringlining.....	A-6
Subdivision.....	A-6
tt.....	A-6
Tool tip.....	A-6
Trailing Point and Facing Point.....	A-6
Train Reporting Location.....	A-7
Train Switching Zone.....	A-7
Zone Code.....	A-7
Appendix B - Tables.....	B-1
Table 1 – Station Setup Information.....	B-1
Table 2 – Customer Information.....	B-3
Table 3 – Car Information.....	B-6
Table 4 – Waybill Information.....	B-9
Appendix C - Enlarged Figures.....	C-1
Appendix D - Data Field Color Meanings.....	D-1
Appendix E - Troubleshooting and Help Files.....	E-1
User’s Help File.....	E-1
How to get the cars moving.....	E-1
Which requirement is the issue?.....	E-1
Do cars have waybills (BoL) assigned?.....	E-2

The first requirement: waybills into cars	E-2
The second requirement: trains to move cars	E-3
Customer data requirements:	E-3
SPOT data requirements:	E-3
Train data requirements:	E-3
Online traffic movements.....	E-4
Partial railroad setups.....	E-6
Gateways, Regions and other considerations.....	E-7
Gateways	E-7
Appendix F - Backup and Restore Procedures	F-1
Back Ups in General	F-1
Backing Up ProTrak.....	F-1
Backing up Your Railroad’s Data.....	F-2
Restoring Data	F-3
“Lost” Railroads.....	F-3
Appendix G - Operations Reports.....	G-1
Appendix H - ProTrak Program Option Defaults	H-1
Definitions and Terminology.....	H-1
Definitions	H-1
Terminology.....	H-2
Core segment (or Middle) Notes.....	H-2
Spot Format and special SPOTs.....	H-3
Era, Date and Minimum Rates	H-3
Operating Date	H-3
Per diem & Demurrage.....	H-4
Enhanced Switchlist Features	H-4
Second line messages	H-4
Blocking	H-5
Printing	H-5
Switchlist Format.....	H-6
Alternate Switchlist Format	H-7
Appendix I - Quick Traffic	I-1
On-Line Traffic	I-1
Overhead Traffic	I-6
Appendix J - Error/Advice Messages.....	J-1

Appendix K - Timetables	K-1
Timetable 1.....	K-1
Timetable 1 – String Diagram.....	K-2
Timetable 1 - Revised Timetable	K-3
Timetable 1 Revised – String Diagram	K-4
Timetable 2.....	K-5
Timetable 2 – String Diagram.....	K-6
Timetable 2 - Revised Timetable	K-8
Timetable 2 Revised – String Diagram	K-9

Appendix L - Questions and Answers	L-1
A - The ProTrak Interface	L-9
B - Subdivisions, Stations, Zones & “Yd” Yards	L-20
C - Customer Setup	L-24
D - Special Tracks (RIP, Cleaning & Icing)	L-37
E - Interchange Tracks	L-44
F - Train Jobs, Yarding & Timetables	L-47
G - Other RR, Gateways & Private Cars.....	L-72
H - Car Setup & Data Modification	L-75
I - Special Car Issues.....	L-88
J - Commodities & STCC Codes	L-95
K - Waybills, Bills of Lading & Car-orders	L-97
L - Engine Issues.....	L-118
M - Staging Track Setup & Operations	L-121
N - General Operations	L-137
O - Switchlists, Workorders & Cutlists	L-156
P - Reporting & Classifying Trains.....	L-166
Q - Operations & Post Operation Session Reports.....	L-171
R - “y” Track operations.....	L-180
S - Car Routing Topics	L-184
T - Time and Date	L-195
U - Passenger Train Operations	L-198
V - Continuous Operations topics.....	L-199
W - Turn Train Topics.....	L-200
X - Special Situations and Topics	L-205
Index	L-208

Appendix M - Weighing and Filling a Car	M-1
Topic.....	M-1
Subtopic.....	M-1

Appendix N - Importing data N-1
 Importing data from other programs N-1
 Importing Car data N-1
 Importation steps N-2
